DETAILED ACTION

Allowable Subject Matter

1. Claims 17-31 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Takakusaki et al (4,850,850) discloses an apparatus for preparing heat-set plastic hollow vessel, comprising a blow mold having a mold cavity (1), a high pressure fluid source (80, 81), a heater to heat some of the high pressure fluid (85, 86), a blow core (69) engageable with the preform and coupled to the high pressure source and having an exhaust (71) to exhaust fluid from the interior of the preform, a controlling valves (81, 83, 90) for controlling the flow rate of the fluid.

Takakusaki et al, however, fails to disclose a separate high-pressure fluid source from the high temperature fluid source. When the fluid sources are provided separately as disclosed by the current claims, the pressure and the temperature of the preform could be more controllable because the pressure and the temperature could be controlled independently from each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
